

Career Redeployment Workshop

Your Career from the Inside Out

Your Career from the Inside Out supports proactive career planning and development within an organization.

Based upon the seminal book *Make it Work: Navigate Your Career Without Leaving your Organization*, this workshop moves participants through a thoughtful process to build an engaging career within the organization.

Half-Day or Full-Day—up to 16 participants.

Topics

Engagement is the sustained level of motivation that results from people being fully committed to the content of their work and the career path have chosen for themselves. This workshop has changed careers, and even lives.

- ▶ **Career Insight** — using the CSi50 assessment, participants will derive a clearer picture of their current level of career engagement and what they need in their career.
- ▶ **Career Beliefs** — uncovering pervasive career myths and adopting necessary career truths.
- ▶ **Career Navigation** — the six practices of career success to build a greater career.
- ▶ **Career Action** — individual career plans and commitments.

Application

To ensure application of the workshop principles and practices, each participant will have access to an experienced coach one week after the workshop.

This workshop has exceeded my expectations. It opened my eyes to what I always needed in my career (but didn't know). I now have a pragmatic blueprint to shape the career I want and need."

Revenue Cycle Manager
 CHRISTUS Health

This should be required for every professional. It literally changed how I view my career and gave me the self awareness and tools to make my career work now."
